

ALL OF THE FIGURES ARE FROM THE GWD OWN PAPERS WHICH  
JACK RUSKEY HAS IN HIS POSSESSION.

The figures below show the actual water use by farmers for this year and have ben ignored by Director Rogers. In addition the actual use figures for the last 5 years shows an average decline of actual water use of 137 a/f or a 13.7% decline. The data on the last three months I will have by the Board meeting on the 14th and the schedule can be quickly updated.

---

ANALYSIS OF AGRICULTURAL WATER USE FOR FIRST NINE MONTHS OF  
2005 AS COMPARED TO SAME PERIOD OF 2004

2005		2004
MONTH		MONTH
JAN.	66A/F	94A/F
FEB	20A/F	121A/F
MAR.	26A/F	105A/F
APR.	68A/F	232A/F
MAY	111A/F	384A/F
JUNE	260A/F	322A/F
JULY	335A/F	333A/F
AUG.	301A/F	381A/F
SEPT	362A/F	403A/F
OCT	NA	
NOV	NA	
DEC	NA	

TOTAL A/F TO DATE

-----  
1549

-----  
2375

TOTAL DECREASE OF USE OF AGRICULTURAL WATER IN 2005 WAS 826A/F

THE PERCENTAGE DECREASE OF WATER USE IN 2005 OVER AMOUNT OF  
WATER USED IN SAME PERIOD OF 2004 IS 34.77%
